### DETAILED ACTION

1. **Claims 3-5**, and **7-22** are now pending in this application. **Claims 1, 2**, and **6** are cancelled. **Claims 21** and **22** are newly added by amendment.

#### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. **Claim 20** is rejected under 35 U.S.C. 102(b) as being anticipated by Thakor et al. "Multiway Sequential Hypothesis Testing for Tachyarrhythmia Discrimination" , Notice of References Cited, PTO-892, U (hereinafter Thakor).

Regarding **claim 20**, Thakor teaches employing hypothesis testing against each of a plurality of monitored signals (Thakor, page 482, left col, line 54 to right col, line 5) to determine whether an artifact is present in the plurality of monitored signals, in which a null hypothesis includes an assumption that pairs of samples of plurality of monitored signals have a common distribution (Thakor, page 480, start of Section A, to page 481, end of Section A) as corresponding pairs of historical versions (Thakor, page 482, Sec. B) of the monitored signals; and determine that an artifact may exist in one of the plurality of monitored signals when a likelihood that the null hypothesis is true falls below a predetermined confidence level (Thakor, page 481, eq. 2 and 3a to 3c).

***Allowable Subject Matter***

4. **Claims 3-5, 7-19, 21 and 22** are allowed.

***Response to Arguments***

5. Applicant's arguments, see page 12, line 1 to page 13, line 24, filed July 30, 2009, with respect to **claims 3-5, 7-19, 21 and 22** have been fully considered and are persuasive. The rejection of **claims 3-5, 7-19, 21 and 22** has been withdrawn.

6. Applicant's arguments with respect to **claim 20** have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
